

# CMS Attendance

## Knowing member attendance patterns opens a window to connecting people and the church

CMS Attendance makes easy, accurate work of tracking and identifying attendance patterns for worship services, Sunday school, Bible study, and other small groups. With reliable information from CMS, you'll always know which programs and services are well attended and where prolonged absences or absence patterns exist. The data from CMS Attendance will help you better plan future church programs, modify existing ones, and reach out to members who may have drifted away.

### Keep reliable, permanent attendance records

- Enter individual attendance for each service or event in a fast, simple interface that allows exception attendance entry
- Store unlimited historical attendance data by event and by individual
- Track event rosters by group, service, class, or activity
- Report head count totals for worship and other events
- Compare attendance patterns between different time periods

### Communicate effectively with members and staff

- Merge CMS Attendance data for any individual or group to Microsoft® Word®, Excel®, Outlook®, or Constant Contact to generate fast, professional communications right from your database
- Call, text, or email event reminders or last minute changes to any individual or group using NotifyNow

### Boost productivity

- Uses a single database, so all staff have the same, up-to-date information
- Secures sensitive information by restricting access for authorized users only
- Provides optional anytime, anywhere data access using Remote Solutions
- Produces accurate group rosters for events, active church group directory, attendance statistics, labels and name tags, and standard and custom reports
- Integrates with Microsoft Word, Excel, Membership, Contribution, and Outreach

### Technology Solutions to Connect and Empower

CMS Attendance is part of an integrated product suite that helps you organize every aspect of your church ministry while connecting churches with staff, members and the communities they serve. CMS provides a complete suite of products that improve communication, save time and money, and help churches manage ministries, people, finances and reporting from a single technology platform.
